WHO WE ARE

Welcome to Cana, a leading manufacturer and supplier of kitchen cabinets, bathroom cabinet, and hotel furniture based in Vietnam, renowned for over 15 years of expertise in exporting.

At Cana, we feature advanced technology, skilled workforce, rigorous quality control, efficient logistics, customization capabilities, compliance with international standards, and a commitment to continuous improvement and sustainability.

Our factory and warehouse, based in Cu Chi, spanning 20,000 square meters, operates with state-of-the-art automated production lines capable of producing approximately 100 containers per month, ensuring both efficiency and quality in our manufacturing processes.

WHY CHOOSE US

Advanced Technology and Equipment

Utilization of state-of-the-art machinery and tools to ensure precision, efficiency, and consistency in production processes.

Skilled Workforce

Team of highly trained and experienced craftsmen, technicians, and engineers capable of executing complex designs and meeting international quality standards

Quality control measures

Strict quality control procedures at every stage of production to maintain consistency and ensure defect-free products. In Cana, each worker play role as an QC

Material Sourcing and Inventory Management

Strategic sourcing of high-quality raw materials and effective management of inventory to support timely production schedules.

Customization Capabilities

Ability to accommodate bespoke designs and specifications, catering to diverse customer preferences and market demands.

Compliance and Certification

Adherence to international regulatory standards and certifications such as ISO, FSC demonstrating commitment to quality, sustainability, and ethical practices.

Efficient Logistics and Supply Chain Management

Well-organized logistics and supply chain operations to facilitate timely delivery to global markets, minimizing lead times and optimizing costs.

Continuous Improvement Initiatives

Implementation of lean manufacturing principles and continuous improvement programs to enhance efficiency, reduce waste, and innovate processes.

Environmental Sustainability

Integration of eco-friendly practices and technologies to minimize environmental impact throughout the manufacturing process.

Delivery and scheduling guarantee

We ensure that products are delivered on time as promised, meeting agreed-upon timelines and commitments.

Customer service and support

We create relationships with every customer that comes to us. We listen to customers. Dedicated customer service team to provide responsive support, resolve queries, offer payment solutions, cross-check throughout production and shipping to ensure customer satisfaction row.

QUALITY

YOUR REQUIREMENTS - OUR QUALITIES

The perfect combination of aesthetics and functionality is important to us in meeting your individual needs. Durability is an essential quality here, so that your furniture can withstand daily use and potential stresses. You can see, feel and experience our quality at first sight and discover it anew every day. This forms the basis for our system furniture, which always combines design and function in a sophisticated way. This is how we satisfy the most diverse demands of our customers, comprehensively and sustainably.

QUALITY IS ADDED VALUE

All the furniture we make is designed for a long life. That is why we test materials, components and products in extensive test procedures to have a minimum service life of 15 years.

SUSTAINABILITY GOES WITHOUT SAYING

As a globally active company, we think holistically and act sustainably. We are just as committed to the environment as we are to our employees, products and production processes.

KITCHEN RANGE

“As one of the main gathering rooms in your house, we believe that a beautiful, quality kitchen is the best way to make you feel more at home. Our kitchens are designed to be used and are proven to be incredibly durable over time, no matter what your family dishes out. With enviable designs, you no longer have to choose between beauty, function and durability. Our kitchens are designed to give you more freedom. With storage choices flexible enough to meet your daily needs and infinitely customizable options, the kitchen of your dreams is within reach.

Get inspired by browsing some of our kitchen designs or consulting with one of our design experts to craft a kitchen that is perfectly suited to you.”

TRADITIONAL DESIGN

TRANSITIONAL DESIGN

VANITY

“From traditional designs to sleek, ultra-modern styles, you don’t need to sacrifice beauty for the sake of functionality. Built with the best craftsmanship and with expert advice, our design specialists can help you select a design that will suit your style, space, and budget. Maximize your bath space with unique materials and selections that will enhance the charm of any room. Built exactly as you like and packed with personality; the possibilities are endless when it comes to customizing your home”

VANITY

CUSTOM CLOSETS

No matter how hard we try to keep our closets under control, it seems to have a way of becoming cluttered and disorganized in no time. From hanging space, drawers, cubbies, and shelves, our custom closets can provide practical storage solutions for your space and budget. We manufacture our closet unit systems to perfection in a seamless process that is built to last for many years to come. Explore and be inspired by some of our custom closet designs.

UTILITY ROOM / NEAT DESIGN

“Along with kitchens and vanities, Cana also designs and builds cabinets for desks, bars and storage units, entertainment centers, laundry rooms and custom applications to make the most of your space. If you can dream it, we can help you build it”

DOOR PROFILE

Choose from one of our 20 different cabinet door profiles ranging from traditional raised panel to modern flat slab and everything in between. Our classic Shaker painted option is our most popular style.

CABINET

CABINET MATERIALS

We offer several diversified core panels for cabinet such as: Particle board (PB), MDF, Plywood to support customers optimize the costs. These core panels are often finished with LPL, HPL, UV and more than 100 colors and textures from our stock.

CABINET CONSTRUCTION

We have 2 systems:

- + The Confirmat and dowel system is specifically designed for cabinet joinery, providing maximum strength and durability, quick assembly and friendly adjustment.

- + The plastic dowel and glue system bring high aesthetics to the products by hiding the dowel and screw holes.

SOLID DRAWER

PVC EDGING

PVC edging is used for edging faced LPL panels, LPLMDF panels, HPL panels, ... It provides the matching finish to decorative coatings, whether matching the decor or creating an accent. PVC edging is available in matching decor and texture combination or can be individually adjusted to decor templates
